Ike Issues Defense Appeal

Eisenhower Still Holds Out Against Reduction In Taxes

Weeks Says He Expects Pickup By Early Fall

WASHINGTON — A wide variety of economists urged Wednesday that tax cuts be thrown into the fight against recession, but there was no sign their advice would prevail.

Secretary of Commerce Weeks told the U.S. Chamber of Commerce convention that the administration is continually discussing the question of a tax cut, but has reached no decision.

On the general question of what is happening now, he and President Eisenhower sounded much alike.

"Long range, the future looks good," Weeks said. "I believe the economy is leveling out and we will see pickup by late summer or early fall."

Economists 'Tax Views Vary'

Here is the way Eisenhower put it to his news conference:

"You can't say 'Well, now, we are on the high road to an advance.' I do believe there is very continued and emphatic evidence that the decline is flattening out."

Their appraisals came on a day when a panel of university, labor and business economists offered a Senate-House Economic subcommittee some varying views on how to use taxes as a tool with which to fix up the economy.

They coincided, too, with opening of House debate on a Democratic-backed bill to grant 1½ billion dollars in federal money for the relief of the unemployed.

Dem Blasts Demo Bill

Rep. Howard W. Smith (D-Va.), who prefers the Eisenhower plan of federal loans to the states to extend the period of unemployment compensation insurance, called the bill drafted by other Democrats "pure, unadulterated, unabridged, unabashed socialism."

Rep. John W. McCormack (D-Mass.) retorted that the cry of socialism and dole is nothing new. He said it was raised against such things as social security and child labor laws.

Schoolboy Feud Ends In Slaying

MASSAPEQUA, N.Y. — A schoolboy, climaxing a bitter feud with a classmate, waylaid him in a high school washroom Wednesday and killed him with a shotgun blast full in the chest.

"This is for you, Timmy, you creep," police quoted the boy, Bruce Zator, 15, as saying as he sprang from concealment in a toilet booth with a sawed-off shotgun in his hands. Both boys are white.

The victim, Timothy Wall, also 15, was shot down as he combed his hair in front of a washroom mirror.

Dist. Atty. Frank Gulotta said he will ask a grand jury for a first-degree murder indictment against Zator, despite his age. Under the law, he explained, such a charge—punishable by death in the electric chair—can be brought against a youth 15 or older.

Shootings and knifings have become increasingly common in nearby New York City public schools, overcrowded and festering with street gang rivalry. But in this suburban Long Island area, violence inside a school building is a rarity.

Ex-Gov. Fuller Dies

BOSTON — Former Republican Gov. Alvan T. Fuller, 80, collapsed and died Wednesday night while watching the movie *South Pacific*, in a downtown theater.

The Board of Health Tuesday night recommended that all poachers in this village be photographed and the pictures filed. The mug shots will help board of health officials in tracking rabid dogs.

Dr. Rodrigo L. U.S. Unfreezes Egyptian Assets In Peace Move

WASHINGTON — The United States Wednesday unfroze 26 million dollars in Egyptian government assets in a major move to restore friendly relations with President Nasser's United Arab Republic.

The action, announced by the Treasury with State Department approval, came as the Egyptian leader toured Moscow as honored guest of the Soviet government.

It followed by some 24 hours Egypt's pledge to pay Britain and France about \$2 million dollars to settle the bitter dispute which erupted over Egyptian seizure of the Suez Canal 20 months ago.

The State Department, in freezing Egypt's funds, cautiously welcomed the Suez Canal agreement, explaining it wiped out the need to get the money as protection for American shippers who might use the waterway.

The department's announcement said nothing about a series of cautious steps planned as a followup to improve the lukewarm relations with Cairo in the next few months.

These steps include, however: 1. Allowing CARE, a private relief organization to resume operations in Egypt; 2. Beginning a student exchange program for Egyptian and American scholars; and 3. granting export licenses Egypt needs to buy road building and other commercial equipment on the American market.

Nixon Congratulates Argentina On Election

BUENOS AIRES — Vice President Nixon arrived for Thursday's inauguration of Arturo Frondizi as president, and congratulated Argentina on its first free election in more than a decade.

Rear Adm. Isaac Rojas, Argentina's provisional vice president, greeted Nixon and his wife, Pat, on their arrival Wednesday from Montevideo, Uruguay, on the second leg of their goodwill tour.

Nixon said he looked forward to the inauguration of Frondizi, whose administration will replace the military junta that has ruled since dictator Juan Peron was ousted in 1955.

"The inauguration of a new government always is an important event in the history of a country," Nixon said in a speech.

He refused to come out of the car," said Perrault. "When I reached in to grab him, he rolled up the car window and took off."

Robertson was booked on seven traffic violations and one case of aggravated assault on an officer.

He was jailed.

Brains Of Space Projects To Tell Students Of Work

OKLAHOMA CITY — The brains of the Air Force space projects will try to tell 6,000 picked high school students the problems that have to be licked to get a man in space.

From Maj. Gen. Bernard A. Schriever, head of the ballistic missile division to E. R. Quesada, special assistant to President Eisenhower, men who are shooting for the moon will outline their work Thursday.

Backing the verbal discussions is an impressive display of space age rockets and project models, headed by an actual giant Thor missile, set up outside municipal auditorium.

Billed as first of its kind, the conference is sponsored by an assortment of other subjects.

President Sees Evidence Slump Flattening Out

WASHINGTON — President Eisenhower Wednesday interpreted a less-than-season drop in unemployment as evidence that the economic decline is flattening out.

But the President wouldn't go so far as to say a business upturn is beginning.

This was at a news conference at which Eisenhower sought to knock down the idea that his job is too much of a strain, that he may resign and that he is grooming Vice President Nixon as the next Republican candidate for the White House.

Essentially, Eisenhower read the economic barometer about as he has for several weeks. And once more he said that a tax cut still requires more study and analysis.

The Commerce Department announced Tuesday that unemployment fell 78,000 between mid-March and mid-April, compared with decreases of about 200,000 in the corresponding periods of the last four years. The decline was the basis of the first question at the conference—a question whether the President thinks it marks the beginning of an upturn in the economy.

"On High Road To Advance"

Eisenhower replied that he didn't think such a categorical statement could be made or that it could be said that "Well, now, we are on the high road to an advance."

"I do believe," he added, "that there is a very continued and emphatic evidence that the decline is flattening out, and that is, it seems to me, the implication of those figures."

The President sailed through his sixth straight weekly session with newsmen in smiling good humor. He is nearing his record of eight successive conferences set in 1954.

Filipino Doctor Sought In Nurse Killing Gives Up

NEW MILFORD, Conn. — A patient on his way from surgery to his room was killed Wednesday when he was crushed in an elevator accident at the New Milford Hospital.

The patient was identified by hospital authorities as Joseph Choma, 43.

Choma had been in surgery for a gall bladder condition a short time before. He was unconscious at the time of the accident.

Hospital authorities said Choma was crushed to death when the elevator began to rise as his hospital bed was being pushed into it.

The bed and the patient were caught between the floor of the elevator and the top of the door.

Two other patients and two nurses in the elevator at the time escaped injury.

Djouanda demanded that the United States order its citizens to stop helping the rebels and warned of serious effect on U.S.-Indonesian relations.

The charge came from Premier Djouanda as the rebel radio on North Celebes claimed that rebel planes bombed a Soviet-supplied ship carrying troops across the Strait of Makassar to Celebes Tuesday.

The strengthening of our military establishment must be done in the most economical way.

"We must not overspend ourselves, and so weaken our security.

"To do this we must have a single theory of defending our country, and each of us must bend his back to the job of making certain that we do have security with solvency."

Danger In Divided Councils

Eisenhower said the country cannot afford divided councils which might contribute to weakness in an emergency.

It is unthinkable, he said, that Congress and the nation's military chiefs could do other than join in making certain the country could face any danger.

Although he had been invited to attend the session, Eisenhower had sent a note expressing his regrets at his inability to appear.

There was an astonished gasp from the tuxedo-clad chamber members and their guests when the master of ceremonies suddenly announced a surprise visitor.

GM, Ford, Chrysler Making Joint Effort For Pay Settlement

Detroit (AP)—General Motors, the option of terminating the GM contract after it deal with the other companies.

"I think it is very sound negotiating procedure in the circumstances in which we find ourselves," said Bugas, who is Ford's vice president for industrial relations.

The smiling Bugas obviously pleased that GM was seeking a quick showdown with the union.

The companies declined comment on a report they will have a new offer to make to the union by the middle of May.

The auto industry has an average hourly wage of \$2.40. Reuther, whose main goal is profit sharing, has put no estimate on wage demands.

Before leading his team into a bargaining session with the union Wednesday morning, Ford's John S. Bugas applauded General Motors for serving notice of termination of contract on the union Tuesday. GM's action had the effect of challenging the union to strike at midnight May 29—three days before Ford and Chrysler contracts expire.

In Washington, UAW President Walter P. Reuther reiterated the union's stand. He said "We're not going to strike or do anything rash in the middle of a situation" in which there is a backlog of \$50,000 unsold new cars.

Under terms of its contract, GM could have sat back and waited another month, giving the union

ESD Breaking Even In Money Recovery

BALTIMORE (AP)—The Department of Employment Security is spending about \$100,000 a year for the recovery of monies paid out by error or obtained by fraud.

The expenditure actually includes detection, prevention and recovery and amounts to just about a dollar for a dollar.

In 1956, the department said, it recovered \$113,169 including \$43,664 obtained fraudulently. In 1957, the recovery total was \$95,504, including \$34,493 which had been obtained by fraud.

In the past two years, 476 cases of fraud have been submitted to the state's attorney for prosecution. Of the total, 322 defendants were tried and convicted of fraud. Fifty-seven others had their cases dismissed by the state's attorney or grand jury and two were acquitted. The remaining 95 disappeared.

The victim, Gerald Henderson, was unable to talk after the beating, but identified three of his assailants by writing their names on a piece of paper. Henderson suffered a badly bruised face and a swollen throat. He was taken to a hospital.

Police took four youths into custody. The four are members of an ROTC unit of which Henderson is assistant squad leader.

Roosevelt Manley, 17, was booked for investigation. Police Sgt. Lonnie Kelly said the three others, two 15 years old and the third 16, were turned over to the Youth Bureau.

Kelly said he believed there were more than four students involved in the beating.

WASHINGTON (AP)—A bill to curb the power of the Supreme Court and undo the effects of some of its decisions in subdivision cases was approved 10-5 by the Senate Judiciary Committee Wednesday.

Sen. Hennings (D-Mo) called the bill "an unvarnished attempt to intimidate the nine Supreme Court justices." He said he would fight it every step of the way on the Senate floor.

But Sen. Olin D. Johnston (D-SC) praised the committee's vote as "a genuine victory for states rights."

It would strip the Supreme Court of its authority to review cases involving state regulations governing the admission of lawyers to practice in state courts.

Sen. Dirksen (R-Ill) said there was general agreement on the three other sections of the bill "because they are amendatory to existing law."

Tot Hiding In Grass Loses Arm To Mower

CONCORD, Calif. (AP)—A little boy crawled under a backyard fence Tuesday and started playing in tall grass.

Joseph Tosta, 64, unaware of the lad's presence, approached with a power mower. He didn't see the boy until the whirling blades struck. The boy, Lloyd G. Hickey Jr., 2½, was reported in fair condition Wednesday after amputation of his left arm below the shoulder.

Discount Rate Cut

WASHINGTON (AP)—The Federal Reserve Board Wednesday approved a cut in the discount rate charged by the reserve bank of San Francisco. The cut was in line with those announced earlier by 10 other reserve banks.

Effective Thursday, the rate at San Francisco will drop to 1½ per cent from 2¼ per cent.

Adlai Favors Tax Cut Now

CHICAGO (AP)—Adlai Stevenson Wednesday joined the ranks of advocates of a tax cut to pep up the nation's economy.

He told a group of touring editors from Europe and Asia that the economic situation calls for prompt measures.

"A tax reduction would have been more effective if taken sooner than it would if taken now," he added.

An Associated Press reporter asked him, after his speech, if that meant he was for a tax slash now.

"I have been against it because of the deficit," he replied, "but we have reached the point now where we're going to have to have it. That's what the economists say."

Stevenson, the 1952 and 1956 Democratic presidential nominee, told the editors that the recession, if extended, could be serious.

Apple Blossom Queen's Coronation Set For Today

WINCHESTER, Va. (AP)—The press conference and a luncheon were held yesterday morning her highness arrived here Wednesday to begin her reign as queen of the 31st annual Shenandoah Apple Blossom Festival.

But the warmth of the reception given 18-year-old Daphne Fairbanks was in sharp contrast to the temperature which threatened to drop to the freezing point by night, endangering the life of apple blossoms and the comfort of festival participants.

However the teen-age queen, daughter of Mr. and Mrs. Douglas Fairbanks Jr., hasn't been given much time to worry about the weather.

After motoring here from Washington with her mother, sister and grandmother, Miss Fairbanks began a whirlwind series of activities which included presiding at an apple pie baking competition.

Baltimore Police Seek Girls' Attacker

BALTIMORE — A 19-year-old telephone operator, on her way home from work, was raped Tuesday night by a man who threatened to stab her with a pair of shears if she screamed.

An hour earlier, another 19-year-old girl in the same neighborhood was attacked but managed to scare off her attacker by screaming and struggling.

Police said the second victim was grabbed from behind as she took a short cut through a school yard at Rogers and Narcissus avenues.

They said the victim told them the man, described as medium height and weight and in his early 20s, clamped a gloved hand over her mouth and warned her not to scream. He said he would kill her if she did.

Fish are able to fast for long periods of time.

New State Tax Law Challenged

BALTIMORE — A new Maryland law aimed at saving some 18 million dollars in annual revenue from the personal property tax is headed toward a court test.

Albert W. Ward, executive secretary for the State Tax Commission, said he understood that at least one of 50 firms against inventory assessments will take the fight to the State Court of Appeals if necessary. The firm was not identified.

Last November, the Court of Appeals ruled that the tax commission should assess business inventories as it does real estate. Legal experts came to the conclusion this rule could be extended to include all personal property.

Since real estate assessments are lower, the court's interpretation of the statute would in effect cut personal property assessments.

Courthouse Fire Interrupts Trial

HAGERSTOWN — Fire broke out in the Washington County courthouse Wednesday — the first time that has happened since the place was built in 1873, as far as officials could recall.

The blaze broke up a trial and the jury, judge and other court personnel and spectators fled out from the second floor courtroom and down a back stairway.

The main stairway and elevator were blocked by smoke.

On trial was Earl R. Rapp of Clear Spring, charged with attacking a girl with intent to rape. The fire started in a janitor's closet underneath a staircase. Fire officials said it apparently was due to spontaneous combustion. The four fire companies extinguished the blaze within 45 minutes and the trial resumed.

American Aid Becomes Nepal Political Football

By WATSON SIMS

KATHMANDU, Nepal (UPI) — The U.S. foreign aid program has become a political football in this mountain kingdom 11,000 miles from Washington.

Some Nepalese politicians have little good to say for a program that already has pumped more than 10 million dollars into the Illinois-size realm and this year will spend 10 million more.

The most extreme critic, former Prime Minister K. I. Singh,

contends the aid program is actually hurting America's prestige here.

"Why do you buy discredit instead of credit?" Singh asked an American visitor.

He has charged that U.S. officials used bullying tactics to insure that U.S. aid was used as the United States saw fit. He asserted U.S. and British missions sought to help elements fighting Red rule in neighboring Tibet.

U.S. Ambassador Ellsworth Bunker this week denied the United States had interfered in Nepalese affairs. His statement said the United States considers Nepal a sovereign and independent nation. He emphasized that all projects here involving U.S. funds were chosen and approved by the Nepalese government.

Some observers say Singh denounces American aid for lack of a better political issue to work on.

But other political leaders also criticize the way the dollars are being spent. As a result, the 44 U.S. technicians now in Nepal find themselves often on the defensive.

Nepal did not really enter the 20th century until 1950, when the Rana dynasty of hereditary prime ministers was overthrown. The Ranans had rigidly kept out foreign influences for more than 100 years.

Approaching democracy for the first time, Nepal had no telephones, no railroads and no highways. Less than three per cent of the people could read and write.

For every pound of tea, Americans drink approximately 15 pounds of coffee.

Use Of Airplane To Help Launch Satellite Urged

DENVER (UPI) — A team of Brooklyn physicists said Tuesday it would be feasible and profitable to launch satellites from airplanes.

The scientists told an astronauts symposium the use of an airplane, in effect, as the first stage of a space ship would greatly reduce the thrust required by a satellite to attain an orbit around the earth.

They proposed the use, for launching purposes, of supersonic aircraft "which are now technically feasible"—jet planes which would use additional ramjet engines at high altitudes to attain velocities from two to six times the speed of sound.

Use of such an airplane for the first or launching stage would make it possible to place a 10,000-pound satellite into an orbit 200 miles above the earth with rockets totaling only 150,000 pounds of thrust, they said.

By comparison, a conventional all-rocket system would require motors with a thrust of about a million pounds.

The paper was prepared by a scientist team from the Polytechnic Institute of Brooklyn. The authors included Antonio Ferri, Louis M. Nucci, Walter Daskin and Lewis Feldman.

The scientists said use of an airplane for satellite launching eliminates the need for large, fixed rocket launching pads and sites. They said the airplane first stage would be more reliable than the all-rocket system and although expensive, would be entirely recoverable and reusable.

Approaching democracy for the first time, Nepal had no telephones, no railroads and no highways. Less than three per cent of the people could read and write.

For every pound of tea, Americans drink approximately 15 pounds of coffee.

Scientists Isolate Elusive Fever-Causing Chemical

ATLANTIC CITY, N. J. (UPI) — Fever—the sign that your body is fighting infection—is caused by an elusive chemical that races through your system spreading the alarm to the brain.

Researchers reported Tuesday that the chemical had been isolated from the blood of sick persons.

It is produced by the white

blood cells that mass to battle the infection, said Dr. W. Barry Wood Jr., vice president and professor at Johns Hopkins University.

The fever-causing chemical then spreads through the body. When it reaches the brain it upsets the body's temperature control device in the hypothalamus, a part of the brain.

The chemical is apparently excreted by the massing white cells as they gather at the source of infection, Dr. Wood told the American College of Physicians meeting here.

It is known whether fever has a function in fighting disease, Dr. Wood explained. It has some benefits in that it speeds up circulation, metabolism and the movement of cells.

But, he conceded, it's a little hard on the patient. But then maybe it is supposed to be since it makes the patient rest.

Princess-Student

THE HAGUE (UPI) — Dutch Princess Irene, now 18, plans to enter Utrecht University in September to study law, economics and Spanish.

Kippers For Ike

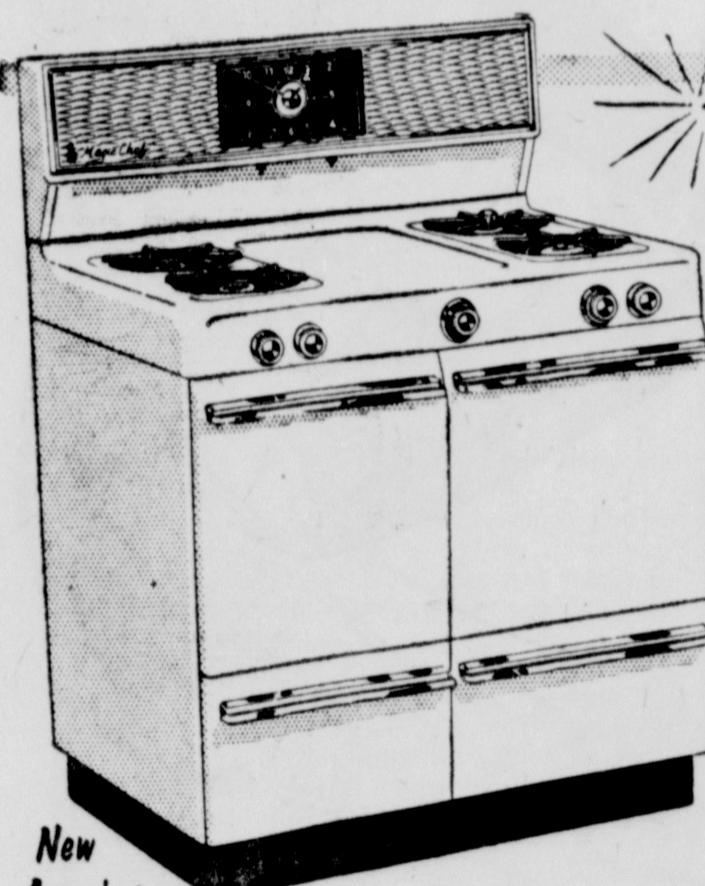

LONDON (UPI) — A canning factory in Scotland announced it is sending a case of kippered herring to the White House for President Eisenhower's table. The factory's kipper exports to the United States have reached the 15-million mark, it said, and the 15-million kipper is somewhere in the case.

The girl who knows how to keep matters well in hand enjoys unusual advantages.

Secrets Of Charm**by John Robert Powers****She's Well Organized—Is This Said About You?**

The nominating committee was discussing various club members, for the purpose of setting up a new slate of officers. Some were said to be well-organized, others not.

The chairman eventually voiced what some of the rest of the committee admitted they were thinking. "I'm getting an inferiority complex," she said. "Is being well-organized the most important thing in the world?"

Perhaps being well-organized can't compete with sparkling personality nor outstanding talent, but it's certainly important for a leading clubwoman, a business woman and to the manager of a busy household. And it's one of the best accomplishments to have to insure happy relations with the world about you.

With matters well in hand, you can do your best both for others and for yourself. More can be done, better and without tension, and with the serenity and gracious confidence that are so vital to charm.

As a greatly admired woman executive told me, being well-organized means making intelligent decisions about what is important, laying out sound programs for attaining worthwhile goals and then proceeding toward them without letting anything switch you off the track. "But it must apply to every department of a woman's life," she added. "From campaigning a cure for her dry skin to working steadily toward advancement in her career. It's the purposeful and persistent woman, backing up good judgement, who makes a success of her life — partly because she knows how to make the time to be her best self."

You Don't Worship God Alone

One of the old favorite hymns starts out "We Gather Together . . ."

To us who belong to the Episcopal Church the thought of gathering together to worship God is one of the most important things in our religious life. We gather together to worship God in a body.

You see, in the Episcopal Church, the services you attend whether Morning Prayer, Evening Prayer or the Service of Holy Communion, are centered in the worship of God. You say, "That's true of any church," and that's right but in an entirely different degree. Sure, we have a sermon in most of our services, and we believe that "preaching the word" is most essential. But, the service is not "preaching centered". It's centered around the worship of God.

And we all take part in the services which are contained in our beloved Book of Common Prayer — we refer to it as corporate worship.

Wouldn't you like to join us? We assure you of this much — you'll leave feeling you've really been in church.

Join us soon in the Episcopal Church near you.

SRC May Operate Radio System To Aid Traffic

BALTIMORE (AP)—The State Roads Commission Wednesday gave tentative approval to a proposed state wide commission-owned radio network to speed the flow of traffic and calls for help in storms.

Although it withheld formal approval, the commission authorized employment of a radio consultant and asked Chief Engineer Norman M. Pritchett for the total cost of a state radio network.

As recommended by Pritchett, a partial network would be set up to provide radio coverage within a 50-mile radius of Baltimore.

Total cost of the partial system, which could be expanded to cover the entire state, would be \$190,300. The Maryland Civil Defense Agency would pay \$70,920 and the roads commission would pay the balance.

Chairman Robert O. Bonnell and commission members John J. McMullen and Edgar T. Bennett were unanimous in their approval of the idea.

The radio network and other routine commission business was discussed at the regular weekly meeting which preceded a formal

Detroit Clobbers Whitey Ford, 10-1

NEW YORK — Detroit clobbered Whitey Ford Wednesday 10-1 as the Tigers became the first club this season to defeat the New York Yankees at Yankee Stadium.

Frank Lary, twice a loser, broke into the winning column with a seven hitter to snap the Yanks' six-game home winning streak. A crowd of only 7,191 saw the game on a cool, windy afternoon.

The Tigers ripped into Ford for 12 of their 14 hits while Lary mowed down the Yanks without too much trouble. Successive doubles by Ford and Hank Bauer accounted for the New York run in the third.

Al Kaline doubled twice and added a single as everybody in the Tiger starting lineup except Reno Bertonia collected at least one hit. The Tigers were minus the services of first baseman Ray Boone and short stop Milt Bolling, who were sidelined by mild virus attacks.

Potomac Staters Bow By 19-7 Score

KEYSER — Davis and Elkins' hard-hitting Senators banged out 13 hits yesterday in breezing to a 19-7 victory over Coach John Fox's Potomac State Catamounts yesterday afternoon at Stayman Field.

The Senators jumped off to an early advantage, scoring eight runs in the first inning, and upped the margin to 15-0 before the Potomac State crew was able to break the ice in the seventh inning with five runs.

Dick Haller, a right-handed knuckleball specialist, set the Cats down without a tally for six innings, but tired in the seventh and was lifted in favor of Jerry Lawrence. Joe Larese finished on the hill for the invaders.

Southpaw Austin "Tufty" Richardson started for the Catamounts, and was followed by another lefty, Jim Mallon, in the second inning, with Anthony "Skip" Delligatti hurling the final three frames.

Dick Brown paced the winners in the hitting department with three bingles, while shortstop Herb Wallace, who blasted a three-bagger in the sixth inning, drove in five runs. "Bink" Barlow obtained two of the losers' four safeties, and Delligatti lapped a triple and collected three RBI's.

Assault By Squirrels

NORMAN, Okla. — Claude Cornelson says he's going nuts over squirrels.

First, a mother squirrel made a nest in his attic and produced a family.

Then another squirrel got into the chimney and caused the smoke to come back into the house and blacken the furniture.

A third squirrel gnawed a big hole in his bedroom ceiling and fell into a bed. It also splintered a closet door in a frantic bid for freedom. Then when it saw a window, jumped at it and cracked the pane.

Garver Posts 3rd Victory Over Bosox

Cerv Belts Pair In 11-4 A's Win

BOSTON — Boston hitmaster Ted Williams joined nine other famous major leaguers Wednesday when he polled his 1,000th extra base hit, a home run in a losing cause, as the Kansas City Athletics rapped the Red Sox 11-4.

Williams' homer was on the first pitch to him in the ninth inning and scored Pete Runnels who had singled.

It was not one of Williams' majestic clouts although a solid line smash into the stands just beyond the foul pole in right which is 302 feet from home plate.

Six fans had little to crow about until the ninth.

Up to the time Williams blasted his homer the A's Bob Cerv and Ned Garver had been the whole show, abetted by some loose Boston infield play.

Cerv belted his fifth and sixth homers of the season. Garver won his third without defeat this year and had a four-hitter until the ninth when the Sox made their other four.

Gov. Underwood Replaces Two River Board Members

CHARLESTON, W. Va. (UPI)—Gov. Underwood today replaced West Virginia's two appointive members of the Interstate Commission on the Potomac River Basin in a move he said was intended to obtain more active participation by this state's representatives.

Underwood said "I have received extensive complaints that our members of the commission have not been active and that on many occasions when the commission met no one was there to speak for West Virginia."

He said the changes were an effort to place on the commission from this state persons who have expressed a willingness to participate actively.

Zoning Rules Now Effective For LaVale

Commercial Area Action Deferred

Zoning regulations for Election District 29 in LaVale were placed in effect by the LaVale Zoning Board, effective last midnight, following a public hearing attended by about 75 persons last night in the LaVale Fire Hall.

Considerable opposition to certain phases of zoning were emphasized at the public hearing. The principal argument was against the designation of an area north of U.S. Route 40, from near the LaVale Fire Hall to near the Mt. Savage Road as a Commercial B zone.

This area includes Abe Feldstein's junk yard and part of the Super Concrete Company, Inc. operation. The protestants, most of whom live along the south side of U.S. Route 40 in that area, contended that the area should be zoned for Commercial A, which permits only certain restricted business operations.

Decision Postponed

As a result of last night's argument, the three-man Zoning Board, which includes John J. Rowan, chairman; C. A. Lancaster and Leslie J. Clark, decided not to zone this protested area at all but leave that decision until after a future public hearing.

One result from the establishment of zoning regulations is that building permits for Election District 29 from now on will be issued by the LaVale Zoning Board. There will be a charge of \$2 for each \$1,000 of the declared estimated total cost of construction.

Two of the chief spokesmen in opposition to the Commercial B classification of the area along the railroad siding were Alfred H. Benna and Robert B. Macbeth. Harry L. Lucas, another resident of the area, suggested that the board defer placing the entire zoning program in effect until a later date.

Board Needs Money

In response, Mr. Clark said that the board now has no funds and needs the money from the building permit fees to carry on its operations.

Members of the Zoning Board pointed out to the LaVale residents that no increase in junk-yards will be permitted. In commercial B zone any existing junk-yard must within two years from the effective date of the regulations enclose the yard within a building or solid fence so as to obstruct the view of the contents of the yard.

The four classifications for LaVale will be Residential A, Rural Residential, Commercial A and Commercial B.

Petition List Checked At Westernport

The task of checking signatures on a petition for a referendum on a proposed amendment to the charter of the Town of Westernport got under way last night.

Late last night some 353 of the names had been checked and it was learned that of this number 232 of the names were on the registration books, although some of these were considered questionable.

Carrying 500 names, the petition was filed on Monday. It calls for a referendum on an amendment, adopted unanimously by the Town Council, that would enable the town to participate in a waste treatment program planned in the Tri-Towns.

The names on the petition were being checked against the town registration list by the town attorney, Horace P. Whitworth Sr.; Louis A. Fatkin, attorney representing the petitioners, and Mrs. Katherine Dailey, city clerk.

Signatures of 20 per cent of the town's 1,150 registered voters are required to force a referendum. Should this be necessary, he said, the vote will be taken at the biennial election on May 27.

Chief judges and machines judges who will operate the polling places in the Allegany County primary election on Tuesday, May 20, will have an opportunity to attend a school of instruction at the Court House between May 8 and May 15 to brush up on the operation of voting machines.

Irvin J. Neat, chief clerk of the County Board of Election Supervisors, said this school is not compulsory for experienced workers. However, he has designated certain election districts whose workers are to report on specific days if they wish instruction.

It is necessary to assign workers for specified days so that they do not all come to the Court House on the same night.

Mr. Neat explained that the judges will be notified only through this newspaper announcement. There will be no individual notices to the workers.

The following schedule has been arranged:

303 Register At City Hall For June Vote

Mary Murray Heads Teachers

Miss Mary Murray of Mt. Savage, social studies teacher at Allegany High School, was elected president of the Allegany County Teachers Association last night at Fort Hill auditorium.

Robert MacMillan, teacher at Mt. Savage, was chosen vice president. Miss Frances Crist was re-elected secretary. She teaches at Humboldt Elementary School. Miss Patricia Wilson, who teaches at Cresaptown was elected assistant secretary.

"There seems to be some sort of propaganda afoot to belittle Mr. Tawes by spreading the notion that he is not as popular as he might be in the city. This is a ridiculous assertion — easily disproved by a look at the record."

Made Joint Tour

Tawes, in his campaign for the Democratic nomination for governor, toured the nearby Westinghouse Air Arm Division plant with Mahoney Tuesday. Tawes, a running mate of D'Alesandro, had accepted the invitation before he and D'Alesandro teamed up, their headquarters said.

But Mahoney was obviously pleased by an opportunity to show potential supporters that Tawes' backing of D'Alesandro did not go to the extent of shunning a joint tour with Mahoney.

In previous campaign speeches, both Tawes and D'Alesandro have emphasized the argument that the mayor's Baltimore City backing was necessary to the success of the Democratic ticket in November.

On the ethics committee, elected from the elementary division, were Myra Taylor and Martha Shaner. Oberlin Chaney was elected from the junior high division and John Helmick from the senior high division.

For county commissioners — William J. Brode, Francis J. Duckworth, John Tucker Mason, John J. Rowan and James P. Roland.

Long Hits Pay-TV

Clarence D. Long, candidate for Democratic nomination for the U. S. Senate, criticized pay television Wednesday and offered some suggestions to the industry.

The Johns Hopkins University professor, in a statement issued as he campaigned through Prince Georges County, said:

"Were the public to pay for what already belongs to them, it would be a travesty on the entire system of free public communications."

"Station licenses or franchise to use this free air are granted in the interest of public service and should be revoked for failure to practice under such a condition."

Long suggested regulating the number of commercials in any given broadcast period as one thing the radio and television industry can do "to restore public faith in free air broadcasting."

The candidate also suggested:

"More choice time for noncommercial programs; more and better local programs, and broadcasting for public service rather than using the media only for hard-selling products."

Marriage License 'Recession' Ends

The marriage license "recession" in Allegany County came to an end in April as 237 licenses were issued in the office of Joseph E. Boden, clerk of Circuit Court, some six more than in April 1957.

The 2.2 per cent increase last month over the corresponding month of 1957 marked the first time this year that an increase has been recorded.

The monthly totals, with the 1957 figure listed first in each case:

January — 192 and 180; February — 181 and 127; March — 215 and 198; April — 231 and 237.
